Objective

Highly motivated and passionate **Python developer** with strong foundations in **Django** and **React**. Seeking a challenging role to apply programming, problem-solving, and web development skills to contribute to innovative projects while continuing to learn and grow professionally.

Technical Skills

- **Programming Languages:** Python, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Django, Django REST Framework, React.js
- **Databases:** MySQL, PostgreSQL, SQLite
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Docker (basic)
- **Other Skills:** RESTful API development, CRUD operations, Frontend-Backend integration

Projects

1. Online Bookstore (Django + React)

- Developed a full-stack web application for managing books, authors, and users.
- Implemented user authentication, CRUD operations, and responsive UI using React.
- Integrated Django REST Framework to create APIs consumed by the React frontend.
- Deployed the application locally and tested API endpoints with Postman.

2. To-Do App (Python + Django)

- Built a simple To-Do application with user login and task management.
- Implemented features like add, update, delete, and mark tasks as complete.
- Used SQLite for backend database and Django templates for frontend rendering.

3. Portfolio Website (React + Python API)

- Created a personal portfolio site showcasing projects and skills.
- Connected React frontend to a Python backend API for dynamic content display.
- Ensured responsive design for mobile and desktop users.

Education

Bachelor of Technology (B. Tech) in Computer Science

Sri Sivani College of Engineering, Srikakulam | 2021-2025

Key Courses: Data Structures & Algorithms, Web Development, Database Management, Software Engineering, Python

Work Experience / Internships

Python Developer Intern – HMI Solutions, Visakapatnam, India

June 2023 – August 2023

- Developed REST APIs using Django REST Framework and integrated with React frontend.
- Assisted in building CRUD operations for internal tools.
- Participated in code reviews and implemented feedback for better code quality.

Freelance Web Developer – Personal Projects / Upwork

Jan 2023 – Present

- Built a personal portfolio website using React and Python API backend.
- Implemented dynamic project sections and contact forms with email integration.
- Deployed projects on cloud platforms and maintained version control via Git.

Certifications

- Python for Everybody – Coursera
- Django for Web Development – Datapro solutions
- React JS – Datapro Solutions
